

Extra-Curricular Activities on Sundays

The School Board recognizes the importance of the involvement of parents, churches and other community organizations in fostering the development of well-rounded citizens. It further recognizes the need to give students time to engage in family, church or community activities, free from interference with school activities.

Accordingly, no school extra-curricular activities shall be scheduled on Sunday nor shall any practices, mandatory or optional be scheduled on Sunday.

Sunday practices may be held, with the permission of the Superintendent, if a post-season game is scheduled on a Monday and the teams were unable to practice on the preceding Saturday due to inclement weather or other extenuating circumstances.

Public service and community service activities that are voluntary shall be exempt from this policy with the permission of the Superintendent of Schools.
