

# Material Safety Data Sheet

May 1997

## Section 1 Product Identification

Product Name: Bemiss-Jason Plastic Glitter

Common Name: Glitter

Product Type: Decorative Article

---

## Section 2 Ingredients

Plastic/Aluminum Flakes 100%

---

## Section 3 Physical Characteristics

Appearance and Odor: Metallic Colored Flakes-Odorless

Nominal Thickness: .003”-.008”

Boiling Point: NA

Vapor Pressure: NA

Evaporation Rate: NA

---

## Section 4 fire and Explosion Hazard Data

Flash Point: No Data

Explosive Limits: No Data

Flammability Limits: No Data

Extinguishing Media: Water, Carbon Dioxide, Foam

Unusual fire and explosion hazards – See section 5

Special Fire Fighting Equipment: Self contained breathing apparatus, protective clothing

---

## Section 5 Reactivity Data

Stability: Stable

Incompatibility: None Known

## Section 5 Continued

Conditions to avoid: Elevated Temperature causing decomposition  
Hazardous Polymerization: Not known to occur  
Polymerization conditions to avoid: None known

---

## Section 6 Health Hazard Data

No acute or chronic health hazards are known to be associated with the use of this product. In case of exposure perform following procedure:

Eye contact:	Flush with water
Skin Contact:	Wash with soap and water
Inhalation:	Remove to fresh air

Incase of accidental ingestion there are no adverse effects expected. It is advisable to seek medical attention.

---
